

Striving for Excellence. Achieving Together.

Striving for excellence. Inspiring to achieve collaboratively through respect, happiness and creativity.

We are independent and reflective for continuous improvement.

We are a school which

- values, respects and celebrates diversity.

- is safe, inclusive and provides a family-like environment where everyone (children, staff, parents and carers) has a voice and are valued.

- supports the growth of responsible citizens for a future world, both on and offline.

- prioritises a creative, enriching curriculum in which learning from a wide range of first hand experiences and outdoor learning are at the centre.

- nurtures resilient, independent learners, who believe in and challenge themselves whilst problem solving together.

- has a strong culture of learning from and with each other: children, staff, parents and carers, the wider community and other schools.
